Bike-Share Case Study

This report provides an explanation and description of the steps performed in order to analyse the data from a bike-sharing company. The goal of the case-study was to identify how annual members and casual riders use the bikes differently. The data used was for collected between January-November 2023. The original data was divided by month, each file contained information about the bike rides within that month. The data was downloaded from https://divvy-tripdata.s3.amazonaws.com/index.html.
